At Gan Ami Early Childhood Education, we are on a journey, or masai in Hebrew. This journey is one we take in connection with one another – from the littlest infant to the most confident of K4 kiddos – from the newest and most nervous parent to the most experienced educators with decades of experience.

We know our most important job is cultivating relationships – between teachers and children, teachers and families, and the school and our community.

Gan Ami is family, our mishpacha. We invite you to join our family and come on a journey of discovery!

American Red Cross Learn To Swim

The JCC’s aquatics programs are based on the principles and methods established by the American Red Cross which is progressive; each skill builds on the skills mastered in the previous level. It is important and necessary to successfully complete each level in progression. Progress reports are handed out at the end of every session informing parents which skills were accomplished, which need continued progress, and a recommendation for subsequent enrollment levels. All lessons are taught in the Peck Aquatic Center on the JCC campus in Whitefish Bay. We realize that there are schedule changes and situations arise that may cause you or your child to miss a class, but to ensure a quality experience for both your child and the other children in classes, the JCC does not allow make up lessons or provide credits or refunds for missed or cancelled classes.

Pre-school Age Aquatics • Ages 3 -5 yrs

Our pre-school age aquatic classes are structured with each 30 minutes lesson combining skill instruction and fun. To ensure a quality and safe lesson, there is a ratio of one instructor to a maximum of four students and the classes are taught in our teaching pool.

Pre-School Level 1
First independent swim lesson experience. Participants will learn to put their face in the water and become more comfortable in the water on their own. Activities include submerging mouth, nose & eyes, blowing bubbles, floating on front & back and exploring arm movements/swimming on front & back all with support.

Pre-School Level 2
Participants enrolled in this class must be able to put their head in the water independently and have a high comfort level of being in the water and participating in some skills on their own. Activities will include learning to float on front & back and front & back glides with minimal assistance with & without kicking, beginning arm movement of front & backstroke, jumping into shallow water, and retrieving a submerged object.

Pre-School Level 3
Participants enrolled in this class must be able to submerge their heads, jump independently into shallow water, and float independently (front & back). Activities will include front and backstroke (arm and leg action coordinated) independently across the training pool and similar activities in the large pool.

NEW Pre-School Level 3B
This class is designed for participants who have successfully completed the skills for Pre-School Level 3 but do not meet the age/endurance qualifications for Youth Level 2. Participants enrolled in this class must be able to swim front and backstroke (with coordinated arm & leg action) for ¼ length of the large pool. Activities will include refining coordinated arm and leg action with an introduction to rotary breathing (breathing to the side while swimming on the front), swimming on the side, and treading water. Participants will work towards independent swimming on both front and backstroke for ½ the length of the large pool.

Adults ages 18+
Location: Pilates Studio

The term "injury prevention" is thrown around regularly. Often it’s associated with stretching, however, injury prevention can mean various things depending on the physical activities performed. Though it’s mainly thought of as stretching, Pilates is a fitness category of its own with a significant impact on injury prevention. In this 90-minute workshop, explore core focus, controlled movements, and a holistic foundation to help you stay injury free. Whether you practice Pilates to support another sport or it’s your workout of choice, the benefits are huge.
